

Activity

Blackberries grow abundantly in the Menominee forest this time of the year. Many Menominee pick berries and have special spots where they know the berries grow from year to year.

Share Appendix 3 – Blackberry Hidden Picture with your students.

Explain to them that bears also love blackberries. Look at the picture of the Menominee forest. Find 5 bears hiding and find 5 berries. Circle them when you find them.

Ask students:

1. Does your family go out and gather berries?
2. What is your favorite part of picking berries?
3. Do you have a favorite way to eat berries?
